

## **The Social Artificial Intelligence Picture System (SAIPS) Release Agreement**

The SAIPS team at Peng's Lab, part of the School of Psychological and Cognitive Sciences and the Beijing Key Laboratory of Behavior and Mental Health at Peking University, manages the Social Artificial Intelligence Picture System (SAIPS) dataset. This dataset features AI-generated images designed to depict social anxiety scenarios and control conditions, accompanied by detailed metadata on characters, social interactions, and emotional contexts. Access to the dataset is granted to researchers on a case-by-case basis under a licensing agreement, supporting studies in psychology, mental health, social anxiety, and the development of AI-based diagnostic and therapeutic tools. All requests for access must be submitted in writing to the SAIPS team.

To gain access to the dataset, researchers must sign this agreement, adhere to the conditions outlined herein, and inform all collaborators about these restrictions. Non-compliance may result in revocation of access rights or other remedies. Upon approval, the dataset will be shared through email. Images are available in jpg format; no other formats or methods of distribution will be permitted. No charges will be applied for accessing the dataset.

The undersigning researcher agrees to the following restrictions:

1. **Research Purposes Only:** The SAIPS dataset must only be used for academic or research purposes as outlined in this agreement.
2. **No Redistribution:** The SAIPS dataset must only be used for the specific study outlined in this release agreement form. Redistribution, publication, copying, or sharing of the dataset, in whole or in part, is strictly prohibited without prior written approval from the SAIPS Principal Investigator. Unauthorized use or distribution may result in the revocation of access and further legal or administrative action.
3. **No Modification or Commercial Use:** Licensees are not permitted to modify the SAIPS dataset or use it for any commercial purposes. The license is granted solely for internal research purposes as specified in this agreement. Licensees shall not use the dataset, its content, or any associated marks, logos, or phrases for the development, promotion, or sale of any products or technologies, either directly or indirectly, for commercial gain.
4. **Publication Requirements:** Licensees intending to publish images from the SAIPS dataset in reports, papers, presentations, or any publicly available documents must obtain prior written approval from the SAIPS Principal Investigator. This requirement ensures proper use and attribution of the dataset in all forms of dissemination.
5. **Citation:** Publications using this dataset must include the citation:  
Ju, Q., Xu, Z., Chen, Z., Fan, J., Zhang, H., & Peng, Y. (2024). Screening Social Anxiety with the Social Artificial Intelligence Picture System. *Journal of Anxiety Disorders*, 102955.
6. **Report Submission:** A copy of all reports and publications using the dataset must be forwarded to the SAIPS team.
7. **Indemnification:** The Licensee agrees to indemnify, defend, and hold harmless the SAIPS team and its affiliated staff, both individually and collectively, against any and all losses, damages, expenses, demands, or claims arising from the use of the SAIPS dataset. This includes, but is not limited to, any legal or financial liabilities resulting from misuse, negligence, or unauthorized actions by the Licensee.

**I confirm that I have read and will comply with the SAIPS Release Agreement.**

Name and Title of Institutional Representative:

**Please note:** If you are still a student (graduate, undergraduate, PhD), please have your supervisor at the university sign the Release Agreement.

Signature and Date:

Institution and Address:

Institutional Email:

Description of Study (continue on next page if necessary):

[illegible]

Please scan and email the executed license agreement to **junoq0420@163.com** & **yujia\_peng@pku.edu.cn** with the email topic of “SAIPS request”.
